**Performance Report for Harbor Regional Center**

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Harbor Regional Center (HRC) we served about 15,850 consumers. The charts on page two tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At HRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in providing the children and adults we serve with appropriate services and supports so they can continue to live in home and community settings. This includes providing the necessary supports for individuals who have moved from the State Developmental Centers who are now living in the community. We were also successful in completing intake assessments and determining eligibility for individuals ages three (3) and over in a timely manner.

As our community continued to navigate the challenges of the COVID-19 global pandemic throughout 2021, HRC increased virtual and electronic communication to remain connected with our community. HRC will continue our efforts to work in partnership with supported employment service providers to develop competitive, integrated employment opportunities for interested adult clients, while also collaborate with adult day service providers to offer additional alternative services to better support individualized work and volunteer experiences. We hope to increase service access and equity across all domains.

We hope this report helps you learn more about HRC. If you have any questions or comments, please contact us!
