Hosted by

The Los Angeles Department of Mental Health has partnered with Los Angeles County Department of Mental Health to fulfill the African American Family Mental Health & Disability Awareness Project – an initiative of the Access for All Underserved Cultural Communities (UsCC). This project aims to integrate mental health and disability awareness into infant and mortality prevention efforts in Los Angeles County. Learning objectives of the free 90 minute presentation for community members include: **1. Redefine disability; 2. Share joy & strength; 3. Build community connections.**
